

Power Turbine Sealant

Aircraft Wing & Fuel Tank Sealants and Filleting Mastics: Air Operated Grover's Sealant Guns

A compressed air source (65-125 PSI operating range) is all you need to operate the Grover automatic positive air charging, self-contained sealant gun.

The built-in material cylinder that is on this gun is designed to accept materials pre-packaged in a 6 oz. cartridge. This reciprocating gun will provide a continuous bead of material when activated. The entire unit is lightweight, about 14 lbs, for easy hand-held operation.

Specifications:

- 3" Air motor - 1 3/4" stroke
- 70 to 1 pressure ratio
- Brass air cylinder
- Teflon coated material cylinder
- Teflon material follower piston
- Teflon pump rod cups
- Injection nozzle .070 I.D. plated

MODEL #	DESCRIPTION
223AR-6	Cartridge Ready Single shot, built-in material cylinder, with automatic air retraction.
