

Longshine networks witch, 48.26cm (19")-Version, 16 port, LCS-FS9116-C

Marke: Longshine
Bestell-Nr.: 32220M
EAN: 4016621115630
Zolltarifnummer: 8471800000
Gewicht in kg: 2.359

LCS-FS9116-C switch has 16 ports 10/100Mbit/s, all 16 ports with Auto-negotiation and Auto MDI/MDI-X. Switch masters all situations such as smaller work groups, net segmentation or multimedia environments. With Auto-negotiation feature it represents an ideal solution to connect net structures with 10Mbit/s or 100Mbit/s. Integrated Store and Forward Technology and CRC packet control ensure fast data throughput with filtering of faulty data packets. Full Duplex Mode permits to transmit and receive data simultaneously. Another feature: switch has no fan and is therefore extremely silent.

- Compatible with 10BASE-T, IEEE 802.3 and 100BASE-TX, IEEE802.3u Standards
- Connections: 16x RJ-45 for 10BASE-T and 100BASE-TX
- supports Full and Half Duplex Operations at all ports
- supports Auto MDI/MDI-X
- supports Back-Pressure in Half Duplex Mode and Flow Control under IEEE 802.3u
- Store-and-Forward architecture filters fragments and CRC failure packets
- 48.26cm (19") chassis
- Rich LED display for network diagnosis
- Buffer Memory: 512 KBytes, MAC addresses: 8K, Backplane: 3.2GB/s
- Max. filter rate: 148.800 packets per second, max. Forwarding Rate: 148.800 packets per second
- Operating temperature : 0°C-50°C
- Humidity : 10%-90% (Non-condensing)
- Dimensions: 441x130x44mm, 48.26cm (19")
- Power supply: internal switching power supply (100-240 VAC, 50-60Hz)
- Package contents: Switch, Manual, power cable, mounting kit
