## The E Family

Versa's E-Series valves are 2 port, 2 position and 3 port, 2 position direct acting pneumatic and hydraulic valves consisting of two body types, side ported and manifold mounted.

E Series Side-Ported valves are individually mounted with body port sizes 1/8" NPT to 1/4" NPT.

Manifold Mounting valve is direct solenoid actuated and is mounted on a manifold which can have 1 to 10 valve stations. The manifolds are provided with the threaded ports for pipe connections, which allows the valves to be easily and swiftly installed or removed without breaking any pipe connections. The manifolds also provide common ports, such as the inlet and exhaust, making only one such connection necessary per manifold.

### Design for Reliability, Flexibility and Availability

#### Vent Options

The standard E Family valve is offered with a threaded vent port. This supports piped exhaust for gases and hydraulic applications. Other vent options are offered to keep contaminants out of the valve for long trouble, free service.

#### Direct Acting Solenoid Design

The E Family of solenoid valves utilize a high performance solenoid direct acting for the perfect balance of flow vs. power. Valves designed for complete pressure range including vacuum.

#### High Heat Epoxy Molded Coils

The E Family solenoid's are high heat rated and are all epoxy molded. A Versa standard! The epoxy molded coil yield a moisture resistance design which also dissipates heat for elevated temperature applications.

#### Electrical Connections

The E Family of solenoid valves offer the widest range of electrical hook connections, from 1/2" conduit to spade terminals and everything in between. All designed to simplify installation and serviceability. Select E Family valves are offered for hazardous location service, should application require such.

#### High Performance Solenoid

Near frictionless direct acting poppet design yields positive shifting, the lowest wattage ratings and unsurpassed reliability. Life cycle ratings to 20 million cycles.

#### Bubble Tight Sealing

The E Family of products utilizes an elastomer sealed poppet. This design offers a bubble tight seal. Many seal materials are available to offer the greatest flexibility in application/media solutions.

#### Porting Options

E Family valves are available with 1/8" or 1/4" ports for ease of installation. Select Families are available in manifolded configurations for ease of installation, space savings and trouble free maintenance.

#### Durable Materials of Construction

E Family materials are available in stainless steel or aluminum to offer the greatest flexibility in application/media solutions.

# SOLENOID SELECTOR General Purpose

## NONHAZARDOUS LOCATION SOLENOIDS

**COIL CODES:** Identify the solenoid frequency and voltage, consisting of a "Rating Code" and "Voltage" as shown at right. Coil codes complete the part number for a solenoid operated valve.

**Rating Code**  
 A = 60Hz frequency  
 D = Direct Current (DC)  
 E = 50Hz frequency

**Voltage**  
 Indicated by three digits:  
 e.g. 24 volts = 024  
 120 volts = 120

**A120 = AC, 120Volts/60hz**

24VDC (4W) (Consult factory for other voltage options)	Continuous duty coil & rectifier, including surge suppression, potted within housing.	Thick wall epoxy coil housing with integral junction box. Internal ground terminal.																																					
24VDC 10W inrush, 2.6W holding) (Consult factory for other voltages)	Continuous duty coil & power controller potted within housing.	M20 x 1.5 conduit entry: (-XMAA), (-XMFA), 1/2 NPT conduit entry with adapter: (-XMAF), (-XMFF)																																					
24VDC (0.8W) (Consult factory for other voltages)	Continuous duty coil and power controller potted within housing.	Requires the use of an approved safety barrier or isolator. Thick wall epoxy coil housing and integral junction box. Internal ground terminal. M20 x 1.5 conduit entry: (-XIFA) 1/2 NPT conduit entry with adapter: (-XIFF)																																					
24VDC (1.6 watt max.) System voltage prior to barrier	Class F epoxy molded coil (155°C). Continuous duty.	Requires the use of an approved barrier or isolator. Maximum operating system voltage before barrier 28VDC. Maximum pilot pressure 115 psi (8 bar). 3 spade terminals, ISO DIN 43650, Form "A" PG9 cable gland (-HC) 1/2 NPT conduit entry: (-HCC)																																					
1.8 watts 0.85 watt, 12 or 24 DC	Class F, Continuous duty	Coil: 1/2" NPT, male hub with 72 inch wire leads, 3 wire. Not polarity dependent Epoxy molded/encapsulated (Factory Sealed), Inline off conduit hub. Not orientation sensitive, coil housing and body 316 stainless steel with FKM seal																																					

\*Bold, recommended solenoid options. See page 5 for additional options.

# SERIES EZ

## Side Ported Types

Series EZ valves are direct solenoid actuated valves and, physically, are the smallest of the Series E type valves. Ports are 1/8" NPT in the valve body and are individually mounted. See below for technical data.

Series EZ Bantam Multiple Manifold valves are direct solenoid actuated and have 2 to 10 valve cavities within a single body. Each valve within the manifold must be the same and perform the same function. See page 12 for part number example.

<u>Functional Types Available</u>	<u>Ports Provided</u>
2-way, NC or NO.....	Common inlet, individual outlets
3-way, NC.....	Common inlet, individual outlets, exhaust to atmosphere. Common exhaust is available.
3-way, NO.....	Common inlet & exhaust, individual outlets
Multipurpose.....	Individual "NC," "COM," & "NO" ports

Function	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose
Pressure:	Vacuum - 500
Media	Air, Oil, Water
Flow:	to 0.21 Cv
Temperature:	0°F (-18°C) to 180°F (82°C)
Ports, Inlet & Outlet:	1/8" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (see page 4)
Coil rating:	Class F, continuous duty
Power:	8.5 - 10 .5 Watts
Connections:	DIN standard (-HC), Flying Leads (-243) or 1/2" NPT conduit Hub (-228L) optional
Ingress protection:	IP65 (-HC), NEMA 1 - 3 (-243), NEMA 4 (-228L)
Materials of construction:	
Body:	Aluminum
Seals:	FKM (fluorocarbon)
Coil:	Epoxy molded, Class F, continuous duty
Manifold:	Aluminum
Mounting:	(2) threaded holes

# SERIES E5

## Side Ported Types

Series E5 compact valves are direct acting solenoid actuated Valves. They are physically smaller than the Series E full-size valves described on pages 18 through 21, but offer most of the same orifice sizes and operating pressure ranges as the larger valves. Ports are 1/8 NPT in the valve body and the valves are individually mounted.

Function:	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose
Pressure:	to 500 psi (see table page 13 - 14)
Media:	Air, Oil, Water
Flow:	to 0.26 Cv
Temperature:	0°F to 180°F (-18°C to 82°C)
Ports, Inlet & Outlet:	1/8" or 1/4" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (General Purpose see page 4) (Hazardous Location see page 7)
Coil rating:	Class F, continuous duty (Class H optional)
Power:	8.5 - 10.5 watt
Connections:	1/2" NPT
Ingress protection:	NEMA 1, 2,3 & 4/4X, General Purpose NEMA 1, 2,3 & 4/4X, Hazardous Location NEMA 7, 9, 4/4X, FM & ATEX
Materials of construction:	
Body:	430 Stainless (316 Stainless Steel optional)
Seals:	NBR (Nitrile)
Coil:	Epoxy molded
Mounting:	(2) threaded holes (optional bracket -WMA)

# SERIES E4

## XV & XT World Solenoid Valves

A compact, heavy duty solenoid valve for hazardous location service. Valve and solenoid housing are stainless steel for superior corrosion resistance. Worldwide certifications available. Valves available in 2-Way, 3-Way, selector or diverter functions. All products are rated for air, gas, oil or water. Porting available in 1/8" or 1/4" NPT for tubing convenience.

Function:	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose
Pressure:	to 400 psi (see selector table)
Media	Air, Oil, Water
Flow:	to 0.26 Cv (see selector table)
Temperature:	+5°F to 194°F (-15°C to 90°C) -40°F to 194°F (-40°C to 90°C)(low temp option -44)
Ports, Inlet & Outlet:	1/8" or 1/4" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (see page 7)
Coil rating:	Class H, continuous duty
Power:	1.8 or 0.85 watt
Connections:	1/2" NPT
Ingress protection:	IP 66/67/68 NEMA 4X, 6P
Materials of construction:	
Body:	430 Stainless (316 Stainless Steel optional)
Seals	FKM-fluorocarbon (Low Temp Nitrile optional)
Coil:	Epoxy molded
Mounting:	(2) threaded holes (optional bracket -WMA)

XV solenoid shown with H2E Hyd adapter

XT solenoid shown with D14 Dust Nut

## XDB World Solenoid Valve

A compact, heavy duty solenoid valve with integral junction box for hazardous location service. Valve and junction box are stainless steel for superior corrosion resistance. Worldwide certifications available. Valves available in 2-Way, 3-Way, selectors or diverters functions. All products are rated for air, gas, oil or water. Porting available in 1/8" or 1/4" NPT for tubing convenience.

Function:	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose
Pressure:	to 400 psi (see selector table)
Media	Air, Oil, Water
Flow:	to 0.26 Cv (see selector table)
Temperature:	+5°F to 194°F (-15°C to 90°C) -40°F to 194°F (-40°C to 90°C)(low temp option -44)
Ports, Inlet & Outlet:	1/8" or 1/4" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (see page 7)
Coil rating:	Class H, continuous duty
Power:	1.8 or 0.85 watt
Connections:	1/2" NPT or M20 conduit hub
Ingress protection:	IP 66/67/68 NEMA 4X, 6P
Materials of construction:	
Body:	430 Stainless (316 Stainless Steel optional)
Seals	FKM-fluorocarbon (Low Temp Nitrile optional)
Coil:	Epoxy molded
Mounting:	(2) threaded holes (optional bracket -WMA)

# SERIES E

## Side Ported Types

Series E Full-Size Side-Ported valves are direct solenoid actuated and are individually mounted. 1/8 NPT or 1/4 NPT ports are provided in the valve body.

Function	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose.
Pressure:	to 250 psi (see table page 19)
Media:	Air, Oil, Water
Flow:	to 0.26 Cv (see table below)
Temperature:	0°F to 180°F (-18°C to 82°C)
Ports, Inlet & Outlet:	1/8" or 1/4" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (General Purpose see page 4) (Hazardous Location see page 7)
Coil rating:	Class F, continuous duty (Class H optional)
Power:	7.3 - 12 watt
Connections:	1/2" NPT
Ingress protection:	NEMA 1, 2,3 & 4/4X, General Purpose NEMA 1, 2,3 & 4/4X, Hazardous Location NEMA 7, 9 & 4/4X
Materials of construction:	
Body:	430 Stainless (316 Stainless Steel optional)
Seals	NBR (Nitrile)
Coil:	Epoxy molded
Mounting:	(2) threaded holes (optional bracket -WE)

Two-Way, NC or Two-Way, NO can be accomplished by plugging the appropriate port.

**NOTES:**

- \*Specify Voltage: See "Coil Code" definition page 7
- For General Purpose coil voltages see page 4.
- For Hazardous Location coil voltages see page 7.
- For additional (-XX) options see page 5

†Pressures are for both AC or DC coil unless two pressures are shown. In that case, the pressure in color is for DC. Vacuum is AC only.

# SERIES E

## Manifold-Mounting Types

Each Series E Full-Size Manifold Mounting valve is direct solenoid actuated and is mounted on a manifold which can have 1 to 10 valve stations. The manifolds are provided with the threaded ports for pipe connections, which allows the valves to be easily and swiftly installed or removed without breaking any pipe connections. The manifolds also provide common ports, such as the inlet and exhaust, making only one such connection necessary per manifold. Installation is neater and maintenance easier since valves are grouped in one location. Several different piping arrangements are available to provide flexibility of application.

Valves are supplied assembled to manifolds, but must be ordered separately. Station Blanks (E-189) are available for blocking off any unused or "future" valve stations on the manifold. To order complete unit, specify manifold desired and quantity and valve model number required. Valves must all be same model.

Function	2-Way NC, 2-Way NO, 3-Way NC, 3-Way NO, Directional & Multi-Purpose
Pressure:	to 250 psi (see table page 21)
Media:	Air, Oil, Water
Flow:	to 0.26 Cv (see table below)
Temperature:	0°F to 180°F (-18°C to 82°C)
Ports, Inlet & Outlet:	1/8" or 1/4" NPT
Exhaust/vent:	Vent to atmosphere, #10-32 thread (NPT port or dust protectors available)
Voltages:	AC or DC (General Purpose see page 4) (Hazardous Location see page 7)
Coil rating:	Class F, continuous duty (Class H optional)
Power:	7.3 - 12 watt
Connections:	1/2" NPT
Ingress protection:	NEMA 1, 2,3 & 4/4X, General Purpose NEMA 1, 2,3 & 4/4X, Hazardous Location NEMA 7, 9 & 4/4X
Materials of construction:	
Body:	430 Stainless (316 Stainless Steel optional)
Seals	NBR (Nitrile)
Coil:	Epoxy molded
Manifold:	Aluminum
Mounting:	(2) threaded holes (optional bracket -WE)

**MANIFOLD FEATURES:** Piped Exhaust; Common inlet for all valves; Individual outlets (cylinder ports) for each valve; Common exhaust port for all valves.

# SERIES E3 *Inline Valve*

An inline, compact, heavy duty solenoid valve designed for the most extreme environments. Valve and coil housing are stainless steel for superior corrosion resistance and factory sealed. Rated for hazardous location service. Worldwide certifications available. 1/4" NPT 3-Way Valves for air, gas, oil or water. Male inline conduit hub for ease of installation. Super low watt option available for applications where power is a premium.

## Dimensions

## FLOW SCHEMATIC

## Functional Description

The Electric Quick Exhaust Valve is a three-way, NC, 3/2 valve with extra large exhaust orifice in order to provide extra fast movement of the cylinder rod, or to exhaust systems rapidly. When the solenoid is energized, the outlet port is connected to the inlet port and the exhaust port is closed. When the solenoid is de-energized, the inlet port is closed and the outlet port is connected to the exhaust port, providing rapid evacuation of the system.

## Construction

Body: 316 Stainless Steel (Conforms to NACE standard MR-01-75)

Solenoid Operator: 304, 430F & 302 Stainless Steel (wetted parts)

Seals: FKM (Fluorocarbon) O ring seals;  
CR (Neoprene) coated nylon flapper.  
Screws: Stainless Steel

**(For Pneumatic Application Only)**

**Versa has been supplying the fluid power industry with pneumatic and hydraulic components for over 50 years. We have built a reputation for quality that is unsurpassed in the market for high performance solenoids, pneumatic relays, resets and pilot valves.**

**WARNINGS REGARDING THE DESIGN APPLICATION, INSTALLATION AND SERVICE OF VERSA PRODUCTS**

The warnings below must be read and reviewed before designing a system utilizing, installing, servicing, or removing a Versa product. Improper use, installation or servicing of a Versa product could create a hazard to personnel and property.

**DESIGN APPLICATION WARNINGS**

Versa products are intended for use where compressed air or industrial hydraulic fluids are present. For use with media other than specified or for non-industrial applications or other applications not within published specifications, consult Versa.

Versa products are not inherently dangerous. They are only a component of a larger system. The system in which a Versa product is used must include adequate safeguards to prevent injury or damage in the event of system or product failure, whether this failure be of switches, regulators, cylinders, valves or any other system component. System designers must provide adequate warnings for each system in which a Versa product is utilized. These warnings, including those set forth herein, should be provided by the designer to those who will come in contact with the system.

Where questions exist regarding the applicability of a Versa product to a given use, inquiries should be addressed directly to the manufacturer. Confirmation should be obtained directly from the manufacturer regarding any questioned application prior to proceeding.

**INSTALLATION, OPERATION AND SERVICE WARNINGS**

Do not install or service any Versa product on a system or machine without first depressurizing the system and turning off any air, fluid, or electricity to the system or machine. All applicable electrical, mechanical, and safety codes, as well as applicable governmental regulations and laws must be complied with when installing or servicing a Versa product.

Versa products should only be installed or serviced by qualified, knowledgeable personnel who understand how these specific products are to be installed and operated. The individual must be familiar with the particular specifications, including specifications for temperature, pressure, lubrication, environment and filtration for the Versa product which is being installed or serviced. Specifications may be obtained upon request directly from Versa. If damages should occur to a Versa product, do not Operate the system containing the Versa product. Consult Versa for technical information.

**LIMITED WARRANTY DISCLAIMER AND LIMITATION OF REMEDIES**

Versa's Series products are warranted to be free from defective material and workmanship for a period of ten years from the date of manufacture, provided said products are used in accordance with Versa specifications. Versa's liability pursuant to that warranty is limited to the replacement of the Versa product proved to be defective provided the allegedly defective product is returned to Versa or its authorized distributor. Versa provides no other warranties, expressed or implied, except as stated above. There are no implied warranties of merchantability or fitness for a particular purpose. Versa's liability for breach of warranty as herein stated is the only and exclusive remedy and in no event shall Versa be responsible or liable for incidental or consequential damages.
