

Height adjuster HA12

Article number: 0200461

- Facilitates the positioning (y-direction) of a suction cup.
- Provides an adjustable height extension between a mounting bracket (MB) and a suction cup.
- Can be used with a suction cup / rod extension to further elongate the cup position.
- Key handle to avoid rotation when connecting vacuum ports.

Technical data

Description	Unit	Value
Material	-	Al. Nitrile (NBR). Steel
Load, horizontal, max.	N	31
Load, vertical, max.	N	44
Temperature, max.	°C	60
Temperature, min.	°C	-20
Weight, min.	g	23
Volume	cm ³	1.131
Action range/Stroke	mm	50
Tightening torque, max.	Nm	10
Tightening torque, min.	Nm	6
