

- Use together with piFLOW® SMART and control unit ECU-15S
- Control the suction and discharge time in the vacuum conveyor body
- Control the product level in feeding- and receiving vessel

Technical data		
Description	Unit	Value
Material	-	ASTM 316L. Ethylene Propylene (EPDM). Nitrile (NBR). Polyether Ether Ketone (PEEK). PUR
Temperature, max.	°C	80
Temperature, min.	°C	-25
Weight, min.	g	1142.6
Cable specification	-	M12. 4-pin. L=10m
Current	mA	25
Current, max.	mA	50
Voltage, max.	VDC	30
Voltage, min.	VDC	12
