(4) **REGULATOR** Brass

(5) **PROTECTION CAP** Brass

**WORKING TEMPERATURE** -60 +250 [°C] ; -40 +482 [F] max

### DESCRIPTION

NA" model safety valve for air compressors, pneumatic circuits or other air or steam pressure vessels. This model discharges the fluid directly into the atmosphere. The safety valve can be customised by setting pressure, fitting/thread, body material, sealer compound, spring, with or without CE certification, with or without inspection ring."
